AREA OF INTEREST

- Business analytics
- Digital marketing
- Social media management
- Big data analytics
- Video editing
- Content creation

INTERNSHIP

Code bind technology - Internet of things

PROJECT

• Plant disease detection and diagnosis

Plant Disease Detection and Diagnosis is a system that identifies plant diseases using image processing and machine learning. It works offline, supports Tamil language, and provides voice output for easy use. The system detects diseases and gives basic treatment suggestions to help farmers.

• Smart expenses tracker

Smart Expenses Tracker helps users track income and expenses easily. It records daily spending, manages loans and EMIs, and supports trip budget planning. The app also provides insights to save money and control unnecessary expenses, improving overall financial management.
